CEO and other executives

Decision-making process and main principles of remuneration

eQ's Board of Directors decides annually on the remuneration system of the Group, as well as on the principles of performance-based remuneration and the persons involved in the system. The Board of Directors also decides the remuneration of the CEO and the members of the Management Team, based on a proposal by the CEO. The Board reviews annually, in a manner that it decides on separately, that eQ Group has complied with the remuneration system.

eQ's remuneration systems are divided into long-term incentive schemes and the annual performance bonus system. In remuneration, eQ follows the following main principles:

- The systems support eQ Group's long-term goals, such as improving the profitability of the business in a long term, sufficient capital adequacy, return on investments and cost efficiency.
- Remuneration must be designed to prevent unnecessary risk-taking.
- The Board decides on the payment of the performance bonuses based on the systems, and the decision will be made annually after the end of the incentive period.
- A performance bonus will not be paid and it will be recovered as unfounded, if it is found that the person concerned has acted contrary to eQ's internal policies, laws or regulations or guidelines issued by authorities.
- The decision about remuneration is always made by the superior of the concerned person's superior.
- eQ Group does not have any pre-determined thresholds for remuneration, but eQ's Board of Directors will consider annually and case by case whether it is necessary to restrict the payment of the remuneration. When necessary, decisions are made on a postponement of the payment of variable remuneration, on whether non-cash payment should be used or if the payment should be cancelled. If variable remuneration does not exceed EUR 50 000 per year, payment will not be postponed.

Long-term incentive scheme

The aim of the long-term incentive scheme is to commit key personnel to eQ Group and its objectives. The long-term incentive scheme primarily consists of eQ's option scheme. Options are issued to those who can influence the development of the entire eQ Group through their performance. eQ's Board of Directors decides on the issue of options. The terms of the option scheme are available on eQ's website, in the Investors section.

In addition, eQ Group can introduce other long-term incentive schemes based on the consideration of the Board of Directors. Such incentive schemes can be tied directly or indirectly to the company's share price development.

Annual bonus system

The amount of the annual bonus is determined by the achievement of personal goals, the business unit's result and sales, as well as the company result. The share of the result is the higher, the more the person concerned is able to influence the outcome. eQ's Board of Directors determines annually in advance on what basis annual bonuses will be paid and what their size is. In addition, the Board of Directors decides on the distribution of the annual bonuses after the incentive period has ended.

Remuneration and other financial benefits of the CEO

The Board of Directors appoints the CEO and decides on the CEO's salary, benefits and other terms related to the CEO's employment relationship. The terms of the CEO's employment relationship have been specified in writing in the CEO's contract of employment approved by the Board. Both parties may give notice on this contract with a period of notice of two (2) months. When notice is given by the company for whatever reason or if the contract is terminated through mutual agreement by the company and the CEO, the CEO is entitled to a compensation corresponding to his/her overall remuneration for six (6) months preceding the termination of the contract, which compensation is paid on the day when the contract is terminated. The remuneration of the CEO consists of a fixed monthly salary in cash (monthly salary and fringe benefits), performance bonus as short-term incentive and an option scheme. The Board of Directors decides on the CEO's remuneration. The retirement age and pension of the CEO are determined in accordance with the Finnish Employees Pensions Act. The CEO does not have a supplementary pension scheme.

In 2013, the CEO was paid an overall remuneration of EUR 240 074 (2012: 234 856), the share of variable remuneration being EUR 50 000 (2012: 46 329).

Mikko Koskimies, member of the Management Team, has invested in eQ's shares as part of the long-term incentive scheme for the management. For the purpose of shareholding, a share issue was directed to a company wholly owned by Mikko Koskimies on 4 September 2012. The

subscription of shares was financed by capital from the company owned by Mikko Koskimies and through a loan issued by eQ to the company. As part of the arrangement, eQ's Board decided on 4 September 2012 to grant the company wholly owned by Mikko Koskimies an interest-bearing loan of a maximum of EUR 1 336 000 in order to finance the subscription of eQ shares. The loan will be repaid in full within five years at the latest. The company owned by Koskimies has the right to repay the loan prematurely at any time, and transfer of the eQ shares owned by it is restricted for three years during the duration of the scheme. At the end of the financial year 2013 receivable related to this loan was EUR 1 300 000.

Description of the main features of the internal control and risk management systems in relation to the financial reporting process

The objective of the financial reporting process is to produce timely financial information and to ensure that decision-making is based on reliable information. The aim is to ensure that the financial statements and interim reports are prepared according to applicable laws, generally accepted accounting principles and other requirements on listed companies.

The financial reporting process produces eQ Group's monthly and quarterly reports. The Management Team of the Group reviews eQ Group's result and financial performance monthly. The Group management presents the result and financial position of the Group quarterly to the Board of Directors. The Board of Directors supervises that the financial reporting process produces high-quality financial information.

The Group's subsidiaries report their results monthly to the parent company. The financial administration of the Group mostly takes care of the bookkeeping of the subsidiaries. At Group level, this will make it easier to make sure that the financial reporting of the subsidiaries is reliable. The Group's interim reports and financial statements are prepared in accordance with the IFRS reporting standards. The financial administration of the Group monitors the changes that take place in IFRS standards.

Based on risk assessments, the company has developed measures for controlling the risks pertaining to financial reporting, which make sure that financial reporting is reliable. The companies use various reconciliations, checks and analytical measures, for instance. The financial administration of the Group prepares monthly analyses of income statement and balance sheet items, both at company and segment level. In addition, tasks related to risk-exposed work combinations are separated, and there are appropriate approval procedures and internal guidelines. The reliability of financial reporting is also supported by various system controls in the reporting systems. Other basic principles of control are a clear division of responsibility and clear roles as well as regular reporting routines.

The Group does not have a separate internal audit organization. The CEO is responsible for the tasks of the internal audit function. The CEO may assign external evaluators to carry out audits on areas that the CEO deems necessary. The risk management and compliance function of the Asset Management segment is responsible for risk management related to the business and the compliance of the operations to rules and regulations. The risk management and compliance function carries out different sample checks of the operations. The CEO reports the observations to the Board of Directors.

Insider administration

eQ Plc complies with the Guidelines for Insiders issued by NASDAQ OMX Helsinki Ltd on 9 October 2009.

The company maintains an insider register on statutory insiders and company-specific insiders. The statutory insider register, which is public, includes the members of the company's Board of Directors, the CEO, the Management Team, and the auditor with main responsibility. In addition, the personnel of financial administration, risk management and communications, the secretary of the CEO and the management of major subsidiaries are regarded as company-specific insiders. The insider register is maintained by the Euroclear Finland Ltd.

Those who are regarded as eQ Plc's insiders or those whose interests they protect (persons under guardianship) or corporations they control are not be permitted to trade in eQ Plc's shares on a short-term basis. Investments are regarded as short-term investments when the period between the purchase and transfer or the transfer and purchase of the security is less than one (1) month.

Company insiders may not trade in securities issued by the company for 14 days prior to the publication of the company's interim report and financial statements release. It is recommended that insiders schedule their trading, as far as possible, to periods during which the market has as complete information as possible on issues influencing the value of the share.

The restriction on trading is applied to the company's permanent insiders, those under their guardianship and the organizations they control, as referred to in chapter 2, section 4 of the Securities Markets Act (746/2012). The restriction on trading does not apply to auditors, nor corporations in which insiders exercise significant influence.

It is contrary to good practice and forbidden to circumvent the trading restriction by trading in shares on one's own behalf in the name of a related party or through other intermediaries, such as organizations in which the insider exercises significant influence.

The company uses a register on project-specific insiders in issues or arrangements that deviate from the company's regular business activities due to their nature or size. The company evaluates on a case-by-case basis whether an issue or arrangement under preparation is to be deemed a project. The purpose of the project-specific register is to clarify the moment at which a person is to be regarded as an insider and to make the processing of insider information more efficient.

eQ Plc has informed its permanent insiders of the company's Guidelines for Insiders. The company has a designated person in charge of insider issues, who carries out tasks related to the management of insider issues. The company checks the information to be declared with the permanent insiders annually. In addition, the company checks at least once a year the trading of the permanent insiders based on the register information of the Euroclear Finland Ltd.
